- EIA/TIA 568 A/B
- The tool Bit can punch as well as trim the conductor

Specifications

Mechanical

- Material: High Impact ABS
- Tool Bit: Hardened Steel

Ordering Information

Description	Product Code
DIGILINK Copper Punch Down Tool	DCTOOLPUNCH

The tools form an essential ingredient for any kit that is required by service personnel. The structured cabling system lays stress on following the practices which will add elegance, discipline, method and reliability to cabling. The tools which are used in installation of a cabling system go a long way in determining the above few characteristics. DIGILINK Punch Down Tool is an impact tool specially designed for punching 22-26 AWG wires. The impact pressures can be adjusted as per need, and blades are changeable to suit various types of connectors. The tool comes with dual 'BIT' suitable for '110' as well as 'krone' type IDC (Insulation Displacement Contact). There also is an adjustment knob for 'Low' and 'High' impact.
